

Masonic Gathering
at Pincher Creek

Pioneer Lodge Spitzie No. 6 Entertains Visitors Royally—Harold Pinkney Elected D.D.G.M.

Lodges in all Pass towns and east to Macleod were well represented at a most successful annual meeting of Masonic District No. 8, held last Friday at Pincher Creek, when Spitzie Lodge, one of the oldest in the province, and chartered in the old days of the Northwest Territories, was host to officers and brethren from Coleman, Blairmore, Hillecrest, Cowley, Lundbreck and Macleod, besides visitors from Calgary, Medicine Hat and Cardston.

Rt. Wor. Bro. Walter H. Geering, D.D.G.M., and the brethren of Spitzie Lodge extended a royal welcome to the visitors, and upheld its reputation for old time hospitality and made the visit one of genuine pleasure.

The climax to the afternoon's proceedings in the lodge room was the banquet in the evening, the ladies of the Eastern Star chapter having given well-deserved praise for their part in entering.

The main address at the banquet was by the grand master of Alberta, the Rev. Canon Middleton, who held the attention of the gathering for over an hour in his expostory of a review of Freemasonry from earliest times to the present day, and giving his views on the ideals of Masonry as it should be practiced to day. His address was not without some pertinent remarks and criticism, provoking a great deal of serious thought. Past Grand Master Patterson, of Macleod; Rt. W. Bro. Blackstock, of Medicine Hat; R. W. Bro. W. S. Parks, of Zland Lodge, Calgary; W. Bro. Ironside, of Calgary and W. Bro. Walkie of Lomond Lodge, spoke in reply to the toast to the visitors proposed by Bro. Jackson, of the host lodge.

W. Bro. Ross of Spitzie lodge proposed the toast to the Grand Lodge of Alberta, which was replied to by Rt. Wor. Bro. John Kemmis, grand secretary, of Calgary, who paid a tribute to the cordial co-operation he had been given by Calgary lodges on his appointment last year. He likened his reception by his old lodge in Pincher Creek as a home-coming, as his was the first application received for initiation after the lodge was granted its charter years ago.

Harold Pinkney of Blairmore was elected as district deputy grand master for next year, and it is probable the annual meeting will be held in that town.

Those contributing to the entertainment features of the program were the Rev. G. H. Villett, E. C. Coetick, John Curry, Jr., T. Culbert and H. Purkis.

Wor. Bro. Geering presided over the banquet as toastmaster, and in closing expressed his appreciation for the interest shown by such a large attendance, and thanked all who had taken part in the program.

Coleman members attending were A. M. Morrison, W. L. Rippon, R. F. Barnes, G. Pattinson, Maurice W. Cooke, Alex. Cameron, Wes. Vincent, G. R. Powell, A. F. Short, Sid. Short, J. R. Wood, W. Lee, McKean Hunter, A. E. Graham, W. Whitman and H. T. Halliwell.

Life

Life is a means to knowledge. With this principle in our heart, we may not only live bravely, but also live with joy. And how could one know how to laugh and live well if one had not experienced first both the fighting and the victory?—Nietzsche.

World Cruising Damsels Wear Great Variety of Costumes

ROUND-THE-WORLD DAMSEL GALS

People to whom a world cruise or any other long winter voyage is an experience yet to be enjoyed may wonder what those more fortunate folk do to pass the time while they are sailing the Seven Seas. It may interest the stay-at-homes to know that the time spent on these pleasure jaunts rarely hangs heavy, for all sorts of diversions are planned for the entertainment of the globe-trotters. The bridge fiend has his bridge parties, the amateur photographer his camera expeditions and the dancer his dancing, but one of the most fascinating of all, to the fair sex, at least, is that of purchasing and trying on costumes typical of the various far-off lands visited. Pictured above,

for instance, is a bevy of beauties photographed aboard the world-cruising Canadian Pacific liner "Empress of Australia" en route from China to Japan during her 1928-29 annual round the world cruise. They are blossoming out in dazzling pajama suits which they purchased in the Orient. This collection of pseudo-Chinese maidens must have caused many a masculine heart to miss a beat or two! The other group of ladies are wearing mandarin coats acquired during an earlier trip around the world.

At practically every port of importance it is possible for passengers who are so inclined to purchase some little memento, be it a shawl, a miniature Buddha, a

ring, a native doll, a walking stick or other souvenir of their travels. During a world cruise of the "Empress of Scotland" several years ago a cruise member from Denver, Col. purchased a toy elephant for each member of the Denver Kiwanis Club of which he was a member and posed with his collection of pachyderms for the vessel's corps of amateur photographers. Spanish shawls, parasols and many other articles complete the list of possibilities for globe-trotters with a penchant for collecting.

The "Empress of Australia" will sail again on a globe-circling voyage, leaving New York December 2, 1929, for a cruise of 137 days.

Serve or Stand Aside

The breadth and depth of the idea of enterprise and prosperity rules us all. Men and institutions must serve or stand aside.

Those men who serve this idea best will be granted power and be equipped with the tools of power. The moment they fail to use their power for the general prosperity, their position will weaken, and, if they persist, they will fall.

The idea will go on until it has spent its force, that is, until the people are through with it.—Exchange.

Polish People
Have Fine Hall

Recently Finished Exterior Gives Air of Permanence and Fine Appearance

Faith and enterprise which acts as a refreshing tonic is demonstrated by the Polish Society in the completion of their community hall in East-Coleman. It will be a surprise to many people in Coleman to see the fine building which has been built and which is the centre for many pleasant gatherings.

On Saturday evening a concert will be held there followed by a dance, at which their own orchestra will play.

Fined for Breaches of
The Motor Vehicles Act

In the local police court on Tuesday evening before Magistrate Graham, J. Thompson of Corbin was fined \$15 and costs for permitting his car to be driven by a person not in possession of a driver's license.

J. Price was fined \$5.00 and costs for operating a motor vehicle without a driver's license.

These charges arose from an incident which occurred two weeks ago. Thompson left his car in Coleman Garage. During the evening Price came to the garage and took the car. A short time later the car was badly damaged by turning over or colliding, and was brought back to the garage.

Following investigation into the circumstances the charges were laid by the police, and Price appeared in accordance with the provisions of the Motor Vehicle Act.

Neil McKinnon went to Kinross last week.

Rink Directors
Make Decision

That Rink Be Not Operated Unless Greater Interest Shown by Public

The annual meeting of Coleman Crystal Rink Co. Ltd. was held in the council chamber on Monday evening, notice having been given for two weeks prior. H. C. McBurney, president, was chairman, and the report of the past year was presented by the secretary, R. F. Barnes.

The rink operation showed a deficit of nearly \$500, but this was offset by a donation from the carnival of over \$1,000, which left a surplus of \$446.60.

Following discussion, the meeting decided that owing to apparent lack of interest by the public that insurance and taxes for 1930 be paid, and that the rink be not operated this year unless some interest is shown.

Last season showed very little support given in the purchase of season tickets or admission fees. It is impossible to continue to operate the rink, as the expenses for light and water, coal, electricity and maintenance, considerably exceed the combined revenue from curling club, the hockey club and skating fees. The directors felt that in view of lack of interest shown in the annual meeting and of the low revenue last season, that there was no course left open but to decide against operating this winter, though they intimated that if any proposals were brought forward whereby public interest and support could be stimulated, consideration would be given.

Not Wasting Money, States Nelson

Walter Nelson, chairman of the works committee of the town council, states that the gravel from which the rocks had to be picked up and hauled away was donated to the town by a party who was digging it from an excavation. He resented the somewhat mild criticism about money being wasted, therefore in order to remove any wrong impression that may have been caused, The Journal is pleased to state the facts.

A visit was paid on Sunday to Mr. and Mrs. F. Lynch Staunton, Lundbreck, by Miss H. Gozard and Miss R. L. Dunlop and Bob Pattinson. Mrs. Lynch Staunton, formerly Miss Monica Adams, will be remembered as a popular member of the high school staff last year.

Fined For Using
Brother's Permit

Fines Totalling \$54 Make Two Gallons of Wine Expensive Drink

Charles Siska went to the liquor vendor's yesterday morning, and asked for two gallons of wine. The vendor, Mr. A. L. Watkin, asked if it was his permit and what his age was, and he replied that he was 29 years. Before handing over the wine, Mr. Watkin compared the signature of Siska on the counter slip with that on the permit, and found they did not correspond.

The police was immediately informed, and as a result Thomas Siska, older brother of Charles, was charged with sending his brother to purchase on his permit, and Charles was charged with having purchased liquor whilst under age. He was also informed by Magistrate Gresham that he was liable to a charge of forgery for signing the permit in his brother's name.

The magistrate informed them that taking into consideration the hard times, he would fine them only the minimum amount, and cautioned them against such breaches of the liquor laws. They not only committed an offence, but they also placed the liquor vendor in a serious position, for had he allowed the liquor to be taken out by a minor, he would have been in danger of disqualification.

The prosecution was conducted by Constable Houghton.

Chief Houghton was a visitor last week to Medicine Hat, to bring back a man wanted in connection with a court case.

Resolution Passed at the Meeting
of Retail Merchants

In the Elks Hall, Blairmore, yesterday afternoon, the following resolution was passed:

The Crow's Nest Pass Branch of the Retail Merchants Association, comprising the towns of Coleman, Blairmore, Fisk, Bellevue, Hillecrest and Passburg:

RESOLVED: That owing to the period of slack work in the mines of the district, and the resultant large amount of carrying on the books of the members of the Association, that we immediately adopt a drastic curtailment of credit and that if no improvement is shown in conditions in the near future that it will be necessary to put our business on a straight cash basis.

The meeting was presided over by F. M. Thompson of Blairmore, and Walter Scott was secretary. Over forty retailers were present.

Bright Harvest Service

The annual harvest festival service at St. Alban's church was entered into heartily by the congregation. The church was suitably decorated with the fruits of the harvest, and the choir sang an anthem, while the familiar harvest hymns were heartily sang by the congregation.

The rector pointed out that though in the Crow's Nest Pass people are somewhat removed from direct contact with the significance of harvest, yet we must ever be mindful of the fact that on the results of a bountiful harvest we are all dependent. Though some may feel that conditions are very trying at present, yet it would be found there are always others who are less fortunate.

The Rev. Mr. Barlow, of Brockton, was to have preached, but instead he went to take the services at Macleod, where the Rev. Randall Powell is seriously ill.

Static Interfered

Just at a time when people were particularly anxious to hear Premier Ramsay MacDonald over the radio last Friday night, when his address was broadcasted from Ottawa, the air was filled with noises of all kinds. It sounded as if all the threshing machines in western Canada were tuning in. Some parts of the addresses came in clearly. Premier Mackenzie King, Hon. R. B. Bennett and the guest of the evening were heard distinctly, but the noise of static made it difficult to follow the addresses. Sentences were heard spasmodically. The rounds of applause could not be mistaken, also the gathering singing "For He's a Jolly Good Fellow," which sounded just like the boys out for a good time. Some listeners became tired of trying to pick up the words from the mass of static, and tuned in on other stations, substituting jazz for words, words, words.

The Average Man and the League

With the closing of the tenth assembly of the League of Nations it is well for those, both in the cities and towns, and the country districts, to get some idea of what the League means to the average citizen.

Immersed in our own affairs and the daily complexities and worries of life, it is hard for the man in the street, or the man in the field to realize what the League means to him. All of us are somewhat hazy about world politics, especially in these days when indifferent crops and business complications make us apt to concentrate on our own immediate affairs. Occasionally we hear high sounding phrases glorifying the accomplishments of the League, at other times the sneers of cynics who advise us to go about our business and take no stock in an agency which can never have any beneficial or practical effect on our lives.

Yet the League and what is done at Geneva are of tremendous concern to all of us. A well known Canadian writer has said: "The League of Nations is not the infallible and mighty thing described in superlative rhetoric by certain orators, the nations do not tremble with fear at its frown, it has disappointed romantic visionaries, and it does a number of things to which little attention is paid. Yet despite all of this, and notwithstanding some failures, the League has more than justified itself. In ten years it has prevented ten wars and become an effective central agency for the consideration of crises and the employment of commensurate arbitration in great and small disputes."

Some people have thought that the League ought to be able to almost automatically put an end to ill-feeling between two South American republics, or prevent Arabesque Jews in Palestine, in the twinkling of an eye. Such action is almost beyond the power of any agency devised by man. Hate, born of jealousy, avarice, racial and religious antipathy may bias into wholesale murder at any moment and justice and commensurate are powerless for the moment. But such an agency as the League has time and again proved that once the first outbreak is spent, it can prevent ill trouble spreading and restore peace and sanity by conciliation, and if necessary, the invoking of economic and armed pressure.

The League of Nations, in short, has won the respect of the world, not only as an agency that can prevent war, but as a necessity that has grown up with the complexity and interdependence of modern international life. Canada, like the other nations, and the citizens of Canada, in town and country, must stand foursquare behind its efforts if our children and our children's children are to be delivered from those horrors which took the flower of our youth, and made the world a nightmare of strife.

Canada has, up to the present, taken a worthy place in the councils of the League. Other nations have recognized the value of the Canadian contribution, realizing that to a greater extent, perhaps, than most Old World nations, Canada's position is an unselfish one, the outcome of a sincere desire to promote world peace in the interests of all, and not chiefly for the purpose of promoting Canadian security or advancing purely Canadian interests.

Canada's future contribution can only be measured by the degree of interest manifested by its citizenship and the support extended by the Canadian people to their Government in all efforts put forth to strengthen the League and enlarge the scope of its humanitarian and peace promoting programmes.

London's Oldest Bank

London's oldest bank is the Hoare's, the age of which cannot be certainly stated; but there is in existence a receipt dated 1633 for money deposited there in that year with Lawrence Hoare, who was in business as a goldsmith.

Meat Consumers Protected

The best branding and grading service directed by the Dominion Department of Agriculture went into effect throughout Canada, September 23rd. The object is to protect the consumer insofar as the quality of the meat is concerned.

Alberta As Oil Producer

Production Now Greater Than That Of Montana, New Mexico and Colorado

Alberta is now producing more oil than the states of Colorado, New Mexico and Montana combined, according to a compilation made by F. J. S. Sur, Calgary geologist. He said, "It may be interesting to the oil fraternity of Canada to know that although Alberta is a body in the ranks of the oil producing regions, it is producing now from its Turner Valley field more oil in barrels than the combined output of Montana, New Mexico and Colorado; and when the figures are computed into dollars the value of Alberta's production is seen to be more than twice that of the three states in question."

A STOMACH RESTORER

Good Advice From One Who Had Suffered Much

Discomfort after eating, gas pains in the intestinal tract, pains around the heart, sour risings in the throat called heartburn are common symptoms of dyspepsia. It is a condition often neglected until it has done permanent harm, yet the treatment is simple. The great contributing cause to this trouble is thin blood. Good blood and plenty of it is required by the stomach to function properly. If the blood is thin the stomach becomes sluggish, food lies undigested, gas forms causing pains, often around the heart. Instead of getting nourishment from the blood the system gets poison. The proper treatment is to enrich the blood, and there is no other medicine so good as this promptly or as effectively as Dr. Williams' Pink Pills. The sole mission of these pills is to make new, rich, red blood, which reaches every organ and nerve in the body, and thus not only banishes indigestion and dyspepsia, but also all other troubles arising from their origin in weak, watery blood.

The splendid results following the use of Dr. Williams' Pink Pills are shown by the case of Mrs. Lucy A. Cushing, a former resident of Kempton, N.S., but now living with her son, West Bethel, Me. Mrs. Cushing says: "I have no hesitation in strongly recommending Dr. Williams' Pink Pills. For years I was a great sufferer from indigestion. Always after eating I suffered from pains in my stomach and other distressing symptoms that accompany this ailment. I tried different doctors while residing at my old home and also at West Bethel, but without getting relief. I was advised by a friend to use Dr. Williams' Pink Pills. I did so and I must say that I am feeling very grateful ever since to the good friend who gave me the advice. I soon found the pills helping me and by the time I had taken nine or ten boxes I was completely restored to good health. I am now in my 76th year I am feeling as well and smart as I did at 35, and am enjoying life once more."

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

High Quality Seed

Inspection Shows Ample Supply To Meet Requirements

G. M. Stewart, head of the Dominion seed branch at Calgary, states that the 1929 inspection of standing fields of grain by members of the Canadian Seed Growers' Association shows it can be reasonably expected that there will be an ample supply of seed of high quality to meet requirements for next year. Yields seem to be somewhat higher than had been generally reported. There were nine inspectors out, and 500 fields viewed, including many in the Peace River country.

Deposits Are Important

British and American Capital Interested In Manitoba Tin

"British and American capital is definitely interested in the possibilities of tin in Manitoba," according to the Free Press Evening Bulletin. "Tin ore has been found in many places, and work now in progress in two or three camps will go far toward proving whether or not tin can be found in commercial quantities. But whatever the outcome, both British and American capitalists intend to be strongly represented, because of the supreme importance of such deposits."

Receives New Appointment

Dr. Seymour Hadwen, research of animal diseases at the University of Saskatchewan, has been appointed director of veterinary science for the Ontario Research Foundation.

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Holloway's Corn Remover.

Ventured Into Northland

Three American Women Made Interesting Trip This Summer

Three women in a boat, not to mention the guide, made a three weeks' journey down the Peace River this summer to fulfill the adventurous dreams of three American girls. For the far northland of Canada has an allure not alone for the sturdy settlers who farm its broad stretches but is as winsome in its appeal to the modern explorer.

Meeting at Vancouver, Dr. Jang Lighting, a doctor of philosophy, from the University of Minnesota, Dr. Lydia Lighting, her sister, a physician from Philadelphia, and Miss Lillian Larson, a physical training instructor from Casper, Wyoming, took the boat to Prince Rupert, the train to Prince George, and from there their adventures began.

Judge Robertson of Prince Rupert, assisted the party of women to make the final arrangements. He is an old-timer of the district and knows what is needed on such a trip. Here they had their own boat made with a small motor attached with which they were to make the trip.

From Prince Rupert, the three women made the trip to Summit Lake by truck through the beautiful country of northern British Columbia. Boating days up the Peace River itself was reached was a delightful experience, Miss Larson said.

At Fort MacLeod an Indian Chief opened his log house to them, and having the neighborhood to a power, they dined until the small hours of the next morning. The party camped every night along the river while their days were filled with fishing.

Every foot or inhabited place they came to was a signal for a dance which began early and lasted late.

Open Kindergarten

For Japanese Children

School Has Been Inaugurated At Kobe By Canadians

The first kindergarten for children of foreign residents of Kobe has been opened by the Canadian Academy in that city. The kindergarten stands on premises owned by the academy by the Kobe Union Church.

Miss Winnifred Taylor, of London, Ontario, who has specialized in kindergarten work and who recently arrived in Japan, is in charge of this new department of Canadian educational activities in this country. Mrs. A. J. Kentwell will assist her.

The initial enrolment of the kindergarten is 26 children, representing nine nationalities, including besides Canadian, Japanese, British, United States, Danish, Swiss, German, Russian and Indian nationalities.

H. F. Woodsworth, chairman of the board of the Canadian Academy, stated that with the opening of this department for the little children, the academy now has a complete course of educating for a school of its grade, that is, from infancy up to entrance at a university.

The new department, Mr. Woodsworth continued, is the result of a good deal of planning by the faculty, the idea having been conceived some years ago, but for various reasons it has been unable to carry it into practice until now.

It was pointed out that the kindergarten, open as it is to all nationalities, has an important mission in such a cosmopolitan community as that of Kobe, as it can render great service in stimulating international mindedness through the children.

Persian Balm preserves and enhances women's natural heritage of beauty. For sheer feminine loveliness it is unrivalled. Tones and rejuvenates the skin, and makes it exquisite in texture. Delightful to use. Smooth and velvety, it imparts a youthful charm to every complexion. Indispensable to all dainty women. Especially recommended to make hands soft and white. Delicately fragrant. Preserves and enhances the loveliest complexions.

England Sends Trees To China

To Be Planted Around Mausoleum Of Sun Yat-Sen

Representative trees, an oak sapling and a young birch tree are to be sent from Kew Gardens, London, England, to be planted in the grounds surrounding the mausoleum of the Chinese statesman, Sun Yat-Sen at Nanjing. Reports from the East say that when the mausoleum of the first Chinese president and its surroundings are completed, they will form one of the world's most beautiful spectacles.

Minard's Liniment For Neuritis

Young people aren't as quiet as the young people of olden days used to be, but neither are the old people.

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Advertise Your Town

Signs Showing Name Would Be Appreciated By Touring Visitors

In this vacation season automobile tourists must be impressed with the difficulty of knowing what town or village they are approaching, often when within its outer limits, because of the absence of a sign giving the town name, says the Boston Transcript. It is true that rural post offices are obliged to bear the town name, but unless some enterprising board of trade takes the matter in hand, the information regarding the place is kept secret.

This is poor enterprise, and worse advertising. Proper announcement of the town or city soon to be reached is information which the traveler often craves, and is always of interest, even though travelling at a speed makes sight of the attractions necessarily brief.

An Oil Of Merit.—Dr. Thomas' Electric Oil is not a jumble of medicinal substances thrown together and pushed for advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

Canadian Wheat For India

A shipment of Canadian wheat consigned from Montreal to India is believed to establish a new record in Canadian wheat exports. Conditions in India called for outside purchases and Canada, as the foremost wheat exporting country in the world, received the order.

The Industrial West

Growing Importance Of Manufacture Is Shown By Recent Figures

"Western Canada is no longer merely a wheat and cattle country," says the Winnipeg Board of Trade News Bulletin. "While it is the greatest factor in the world's wheat market, the importance of its manufacture is also steadily increasing. A recent return shows that there are in the three provinces of Manitoba, Saskatchewan and Alberta, 2,356 manufacturing concerns with a capital investment of over \$270,000,000. Manitoba leads with 850 industrial establishments. Alberta is second, with 776, and Saskatchewan third with 721."

Many mothers can testify to the virtue of Mother's Best Fly-Exterminator, because they know from experience how useful it is.

A Pertinent Question

Canada last year produced 2,414,303 tons of newspaper, valued at \$144,146,632. Pulp and paper is now the Dominion's chief manufacturing industry. But what are Canada and the United States doing to anticipate forest conditions 20 years hence?

The honest gardener confines his operations to trees and shrubs. Napoleon Bonaparte was about five feet three inches in height.

6 Suggestions

Make Your Farm More Comfortable, More Livable and More Profitable with These Simple Spare-time Improvements

If you have any time on your hands here are six suggestions which will make an amazing difference in the attractiveness and efficiency of your farm.

First—Buy a supply of Gyproc Fireproof Wallboard. Then erect Gyproc partitions in your attic, changing the waste space into an additional room or two. Imagine how much more comfortable the family will be with the attic converted into a clean, inviting child's story.

Second—Renovate the lower eaves by nailing Gyproc right over cracked and faded walls. You can decorate the flat, smooth Gyproc surfaces with Alabastine, paint or any other finish. And what a difference it will make to your home.

Third—Line your garage with Gyproc. Gyproc will make it fire-proof, cold resistant and a safer, more substantial home for your car.

Fourth—Gyproc your poultry house. Your fock will have better health, and year-long protection from fire, cold, heat and vermin.

Fifth—Line your grain-bins, barns, stables and other buildings with Gyproc. By doing so you will insure a more valuable, fire-safe, cold resistant and 50 per cent. more beautiful for your stock to live in.

Sixth—Look about for cracked, warped or rotted walls, partitions and ceilings and repair with Gyproc. Such repairs are quick and inexpensive to make because Gyproc saves, nails and cuts so easily—saving time and labor.

Fireproof Wallboard

Needless Pain!

Some folks take pain for granted.

They let a cold "run its course." They wait for their headaches to "wear off." If suffering from neuritis or from neuritis, they rely on feeling better in the morning.

Meantime, they suffer unnecessary pain. Unnecessary, because there is an antidote. Aspirin tablets always offer immediate relief from various aches and pains we once had to endure. If pain persists, consult your doctor as to its cause.

Save yourself a lot of pain and discomfort through the many proven uses of Aspirin. Aspirin is safe. Always the same. All druggists with complete directions.

ASPIRIN

TRADE MARK REG.

BRINGS MESSAGE OF PEACE TO THE DOMINION

Ottawa.—As to the capital of the United States for short days ago, R. Hon. Ramsey MacDonald, prime minister of Great Britain, brought to the capital of Canada his ringing message of peace. But he coupled with the word "peace" the words "national honor." Canada, Great Britain, these other nations which composed the British Commonwealth, must not forget that their sacred honor was involved in the crusade for peace. They must remember that fundamental thing—they were signatories to a pact of peace.

Leaving across the flower-strewn banquet table in the parliament buildings, the voice of the prime minister of Great Britain sank to earnestness as he emphasized his words.

"You sent your own prime minister across the ocean to sign a pact of peace," he said. "His name attached to that document is your name. And you have declared that war has been banished from your national policy. Is our signature to be a mere scrawl in ink upon a perishable document? The signatures of Canada, of Great Britain, of Australia and other dominions have now become part and parcel of their national honor."

That was the position, and he felt that the British Empire was prepared to perform sacrifices in order to ensure that national honor remained unsullied to the end.

The gathering to which Britain's Labor premier spoke was one of the most distinguished that he has thus far faced in his tour of the continent of America. Round the white horseshoe which was the banquet table, were grouped the prime minister of Canada, the leader of the Conservative opposition, members of the Dominion cabinet, members of the privy council from the four corners of the Dominion, and the highest officers of the Canadian judiciary.

There were 132 persons present. According to custom, when the government gives a dinner, the government-general, who as representative of the king would outrank all others present, and Her Excellency, do not attend.

That the words of the speaker, whether grave or gay, found ready response in the minds of those present was indicated by the constant ripple of applause which ran round the table. That his mission had the support of the leaders of the Canadian people was amply testified to by the speeches of the prime minister of Canada, R. Hon. W. L. Mackenzie King, and Hon. R. B. Bennett, leader of the opposition.

The honor in which Mr. MacDonald is held was indicated by Mr. King when he announced that the cabinet had passed an order-in-council conferring the rank of a member of the privy council of Canada upon the distinguished guest.

All that Great Britain was attempting to do at present was to fulfill national honor, said Mr. MacDonald. The great cause in the past had been that the world had spoken righteously, but worldly-wise individuals had always refused to practice it. Now the time had come for a change.

"The great problem we have to face is the problem of the transition time," asserted the Labor leader. The period between so-called military security and the security of peace must be gone through. Here it was that the faint hopes of the world might falter, might need the help of their stronger brothers.

"We have to lead the world gently across its difficulties," said the Premier. "And the crossing must be made as happy and confident as possible until we come smiling over to where real peace and security may be enjoyed."

Daily Air Mail Service

St. Paul, Minn.—Daily service over an air route between Winnipeg and St. Paul—instead of every other day—is announced with the statement that the Schlee-Brock Aircraft interests have acquired the Canadian-American Air Lines. Service between the Twin Cities and Port Arthur is to be inaugurated as soon as a field at the head of the lakes is prepared.

More Buildings Needed

Saskatoon.—In order to keep pace with the growth of the University of Saskatchewan, more buildings are necessary, particularly one for arts and science, according to President Murray, who addressed a gathering of over 300 students at the Arts and Science dinner.

W. N. U. 1808

Madame Curie Visits America

Came To Attend Celebration Held In Detroit For Edison

New York.—Timidly gazing about her in wonderment, a little old lady in black came slowly down the gangplank from the liner "Le de France" here.

"The bustling, chattering crowd on the pier fell silent as her frail figure appeared on the deck above them. 'It's Madame Curie,' the whisper went around.

Her steps carefully guided by Ambassador Charles Gages Davies, who had arrived on the "Le de France," and by Owen D. Young, who had come down to meet her. Mme. Marie Sklodowska Curie, co-discoverer of radium, set foot for the second time on American soil.

She came to honor her fellow-scientist, Thomas A. Edison, and attended a dinner given in celebration of the 50th anniversary of his invention of the incandescent light, in Detroit.

Mme. Curie will be the guest of President and Mrs. Hoover, at the White House, October 29 and 30, and will receive while there a cheque for \$50,000 raised in this country for the purchase of a gram of radium which she will present to the Radium Institute at Warsaw, Poland, her native city.

"Journey's End"

British Dramatic Presentation Will Furnish Treat For Western Audiences

Regina.—A rare thing in the theatre is a play that appeals to English and American audiences alike. An even rarer thing is a play that will run simultaneously and successfully in both London, England, and New York. "Journey's End," which comes to the Grand Theatre, Regina, for three nights, beginning Monday, October 28th, has not only done both of these things, but for nearly a year it has been the foremost and undisputed hit in both theatrical capitals.

"Journey's End," a war play by Robert Cedric Sherriff, was originally put on in London, where it took the town by storm. The English critics accorded it praises that can hardly be duplicated in the modern theatre. "Journey's End," is a quiet, restrained study of men in war. The cast is composed entirely of men, and the scene is laid in front line dugout before St. Quentin. We see a small group of British officers waiting for the great German attack that they know is bound to come, and we see their various reactions in the face of the common danger. That is all. Yet, in this simple, unadorned fragment of front-line life, playwright Sherriff has managed to pack more human interest, excitement, humor, heroism, and tragedy than could be got in an entire season of ordinary plays.

Ottawa Welcomes Canoists

Young Montrealers Making Unique Trip From Vancouver To Halifax

Ottawa, Ont.—Richard Lesage and Paul Paquin, of Montreal, transcontinental canoists, were welcomed to the capital by Mayor Arthur Ellis. Later a civic automobile was placed at the disposal of the intrepid paddlers and they visited Mayor Lambert of Hull, Quebec.

The unique trip by which the young Montrealers have travelled from Vancouver, and plan to reach Halifax, N.S., some time next month, was temporarily halted here while Lesage travelled by train to Montreal because of the serious illness of his sister.

Itinerary Made Public

Premier King Will Speak In Eight Western Cities

Ottawa.—The itinerary of Premier Mackenzie King's western tour made public. The prime minister will speak at Winnipeg, Saskatoon, Prince Albert, Edmonton, Prince Rupert, Vancouver, Calgary and Regina.

Hon. J. L. Baskin, Minister of National Defence, is making a tour of inspection of the West at the same time and will therefore accompany Mr. King for much of the tour. Senator Andrew Haydon, of Ottawa, will also accompany the prime minister.

West Buys Eastern Potatoes

St. John, N.B.—Shipments of potatoes from Carleton and Victoria counties, in New Brunswick, are being made to Western Canada, particularly the prairie provinces. The recent ruling of the railways, giving the privilege of transporting potatoes in transit, is helping the situation and shippers claim the whole New Brunswick crop will find good markets.

Famous Library Restored

Louvain Library Richer In Some Respects Than Before War

Brussels.—When the Louvain Library was destroyed by fire, in August, 1914, during the German occupation, it contained some 350,000 volumes, including 1,000 incunabula and several hundred manuscripts from the twelfth and thirteenth centuries, valued at more than a million dollars. Today, it has been completely restored, and in some respects is richer than before.

By virtue of the Versailles Treaty, the Germans promised to restore the library's contents, and since the articles they have restored are a total of 300,000 volumes, inclusive of 600 incunabula and 300 manuscripts, including one of the eleventh century.

Movie Actor Killed

Chicago.—Rudy Cimino, 23, New York dare devil, fell to his death while sliding down a rope from the 44th floor of the new Civic Opera building, and in his fall injured several spectators, one of them fatally. Cimino was performing for moving picture cameras.

ASK FOR FREIGHT RATE EQUALITY FOR THE WEST

Ottawa.—Complete equalization with the rates to the head of the lakes was demanded by representatives of the British Columbia and Alberta governments in an appeal to the Dominion cabinet against the general order of the Board of Railway Commissioners on the subject. Leon J. Lander, M.P., counsel for British Columbia, and S. B. Woods, K.C., counsel for Alberta, submitted there should be no higher percentage in the rate basis over the mountains than in the rate basis in any other part of Canada.

Counsel for Manitoba and Ontario, the Winnipeg Board of Trade and the City of Winnipeg, as well as counsel for the two railway companies, have given notice of their intention to oppose the appeals.

The millers of Canada are represented by counsel, but so far their attitude has not been disclosed. They probably will support the appeals. A majority of counsel and the cabinet were agreed that the provincial governments appeal signed by the governments of British Columbia, Alberta and Saskatchewan, would be postponed after a protest from other parties interested that sufficient notice had not been given.

After the United Farmers' appeal had been presented it was decided that if any lawyers wanted to go on with the portion of the second appeal which coincides with the first, there would be no objection. A motion put by the Hon. A. B. Hudson, for the Manitoba Government, that the question of the mountain differential should not be discussed at this time, was disallowed.

The result has been a prolonged discussion on the merits of the British Columbia case and the validity of the separate appeal signed by the board of Railway Commissioners on the mountain differential.

WITH MACALPINE PARTY

Richard Pearce, editor of Northern Miner, the best known mining editor in Canada, who was accompanying the MacAlpine party on his second trip across the barren lands. On his previous trip he was with "Punch" Dickens, who by his meritorious feat won the McKee trophy.

Arranges Atlantic Flight

Major Kingsford-Smith Plans London-New York Trip Next Summer

Vancouver.—Major Charles Kingsford Smith has pretty well completed arrangements for a non-stop flight across the Atlantic from London to New York next May or June, he said, following his arrival in the city in which he spent several years of his school days.

"I have one more ocean to cross," he said, as he referred to the 70,000 miles his plane, the Southern Cross, has flown since he made his trans-Pacific flight early last year. "We left the Southern Cross in the Fokker factory, in Holland, for an overhaul," he said, "and will be practically ready, but the old engines, which have crossed the Pacific and Indian oceans and have been around Australia on many trips, will be in the Southern Cross when we start west across the Atlantic."

Urge B.C.-Alberta Highway

B.C. Good Roads League Endorsed Resolution To Government

Harrison Hot Springs, B.C.—A resolution asking the provincial government to complete an inter-provincial highway as quickly as possible was unanimously endorsed by the Good Roads League of British Columbia here. No suggestion was made as to whether the Big Bend route or the Kamloops-Jasper link should be used.

The convention endorsed a recommendation favoring renewal of federal aid for highway construction. J. Johnston, of New Westminster, was elected president for the ninth time.

Ask More Pay For Civil Service

Ottawa.—Creation of a minimum annual salary increase of \$30 for Federal Government Departmental workers, was requested by President V. O. Phelan, of the Civil Service Federation of Canada, when he appeared recently before the civil service commission. A complete and careful consideration of the request was promised by the commission.

Women Work Wires

Women make excellent telegraph operators, according to Mr. J. McMillan, general manager of the extensive Canadian Pacific Railway telegraphs. The advent of automatic sending and receiving instruments and other appliances eliminated much of the heavier work formerly done by men, and in addition to vastly speeding the service, gave an opportunity for efficient typists to become operators as the automatic machines have a keyboard like that of a typewriter, and a knowledge of telegraph code is not required. Roughly forty per cent. of the operators in the employ of the C.P.R. telegraphs are women, about twenty-six per cent. working on Morse shifts, and forty-two on the automatic machines. The photograph shows two girls operating one of the battery of sending machines. Inset is Mr. McMillan, who controls 100,287 miles of wires.

Presented With Home

Samuel Larcombe, Famous Wheat Grower, In Receipt Of Gift From Admirers

Birtle, Man.—Samuel Larcombe, aged pioneer agriculturist of the western plains, whose discoveries of rust resistant grains have made him internationally known, tonight sleeps in a new house, located amid the rolling and fertile fields overlooking the picturesque Bird Tail Valley.

Today, surrounded by hundreds of friends, by the Lieutenant-Governor of Manitoba, Hon. James D. McGregor, and representatives of the provincial government, the house was presented to Mr. Larcombe, a tribute to his work which has greatly enriched Canadian agriculturists. Recently the Larcombe home was destroyed by fire.

Friends throughout Canada contributed funds for the construction of the modern home.

Powers Accept Invitation

Will Attend Naval Conference In London In January

London, England.—The British Government has received official replies accepting its invitations in every instance to a five-power naval conference here in January and also expressions of willingness to participate in proposed preliminary discussions of the problems of limitation. The texts of both the Italian and French replies were published. Italy expressed the desire to collaborate in any step calculated to eliminate the dangers of excessive armaments and said its view on the subject was too well known to require restatement. The text of the Japanese acceptance had also been received, but has not been made public as yet.

ALMOST ALL OF THIS YEAR'S CROP IS OF HIGH GRADE

Saskatoon, Sask.—This year more than 90 per cent. of the wheat falls within the statutory grades. Protein content averages 14 per cent., and in some cases has run as high as 19 per cent. Each year since the Canada Grain Act was passed "commercial grade" have been fixed for grain some way damaged. This year no such grades could be fixed, because there was too little of such grain to make a fair sample. This year is the first time such a thing has happened.

These were some of the statements made by Dean W. J. Rutherford, of the University of Saskatchewan, during discussion following his address to the monthly meeting of the local branch of Canadian Society of Technical Agriculture, at the University, on the subject of "The Grading of Grain."

The Canadian system of grain grading, though not perfect, was, in the opinion of all the chief wheat buying countries the best system in the world. The dean implied in his address Canada's chief competitors, Australia and the Argentine, were taking steps to imitate the western system. The American system was encumbered with too much detail, he explained.

Rutherford believed that eventually the system of sampling, from cars in the railway yards would give way to the practice of basing the grade on the unload sample at the head of the lakes or at Vancouver. More than 50 per cent. of the cars, he pointed out, were too full for sampling. Both railways and elevators encouraged overloading, he said, as they found it economical. In cars so loaded samples could not be taken with a probe.

On the other hand automatic sampling devices had been developed, taking a continuous series of samples during the unloading, which gave an absolutely reliable sample. This sample was kept for a sufficient length of time to allow for inspection.

He stressed the point that the statutory grades should be kept uniform from year to year. Occasionally concessions had been made to gain some temporary advantage, but these had resulted in a loss of confidence in the Canadian grading by overseas buyers and a loss in the long run to the Canadian producer.

New machinery, Dean Rutherford said, had led to some changes. Separation of weeds and foreign matter of grain would now be made. Wild oats were now a commercial commodity and were sold in the East Indies, where they were fed to mules. The pool, he said, made more than 40 cents a bushel out of wild oats last year.

RESTRICTIONS ARE PLACED ON GRAIN LOADING

Winnipeg.—Restrictions had been placed against loading grain for government bins on both the Canadian Pacific and the Canadian National Railways, but the prairie and lakehead storage status remained virtually unchanged. Prairie elevators held an added million bushels of grain and due to heavy boat shipments lakehead storage dropped almost perceptibly.

A new order will restrict loadings for the government elevator at Edmonton, which now holds 1,035,000 bushels in relation to the capacity of 2,500,000 bushels. It is stated by Canadian National Railway officials that sufficient grain is in transit to ensure the elevators being closed to capacity. Orders are already in effect against loading for government elevators at Moose Jaw, Calgary, and Saskatoon; at the Moose Jaw and Calgary bins are at capacity now.

Total storage in government elevators showed an advance of almost a quarter-million bushels to 9,937,000 bushels, about two and a half million from capacity combined. However, storage at all country elevators showed there was no reason for worry with the aggregate at 85,234,000 bushels—just over half of their capacity aggregate.

Unrestricted loading and marketing as a result of the conclusion of the two-week car rationing system was reflected in increased figures. Loadings jumped from 974 to 1,517 cars, and marketings from 2,397,000 to 2,944,000 bushels. Unloadings and arrivals of grain cars at the lakehead were virtually balanced and cars awaiting unloadings were reported increased by only five cars to 4,029 cars. Storage in bins at Port Arthur and Fort William edged down a mere 21,000 bushels to 72,641,000 bushels, when seven boats carried out 1,619,000 bushels the largest day's aggregate for some time.

Viewed Dirigible From Air

Prince of Wales and Prince George Used Airplanes

London, England.—The Prince of Wales and his brother, Prince George, it became known, went in aeroplanes appropriated for their use to meet the dirigible R-101 making its trial trip.

Both took off shortly after noon from Sunningdale, Berkshire, and toured the home counties in search of the dirigible. They finally found it and after circling it and viewing from the air, both returned to Northolt, Middlesex.

Bandits Torture Farmer

Hung By His Thumbs and Threatened To Be Burned Alive

Lethbridge.—A strange story comes from the border where, about 15 miles from Court-Sweet Grass, Steve Churrie, farmer, was hung by his thumbs, threatened to be burned alive with distillate and robbed of \$200 by two unknown bandits.

The story has been authenticated by the Alberta Provincial Police, who believe that one of the bandits is the man who held up Fred Richardson at the C.P.R. station here and robbed him of \$32, as the holdup at Sweet Grass took place the morning after.

Labor Wins In Australia

Melbourne, Australia.—The assumed defeat of Prime Minister Stanley Bruce in his own constituency of Flinders changes the standing of parties following the Australian general elections. The forecast of the new house of representatives is: Labor party, 45; Nationalists, 15; Country party, 10; Independent-Nationalists, 3; Independent, 1, and Country-Progressive, 1.

Prince Will Represent King

London, England.—For the first time since the erection of the cenotaph commemorating Britain's war heroes in Whitehall, King George will be absent from the Armistice Day Service, November 11, this year. It was announced that the Prince of Wales would represent the King and lay a wreath on the cenotaph for him.

Men Accept Invitation

London, England.—So far 150 holders of the Victoria Cross have accepted the invitation to a dinner in the parliament buildings two nights before Armistice Day, at which the Prince of Wales will be present. Many pathetic cases of poverty among those heroes have been discovered.

NOTES AND COMMENTS

National consciousness causes the average U. S. citizen to boast of his country. Canadians might well develop more national consciousness, for we have potentialities which no country in the world can duplicate.

If a business man makes a mistake it is usually admitted between the parties concerned. If a newspaper makes a mistake all the world knows of it. If you do not print the news people want to know why. If you do print news that some think should not be published, then you are wrong again, and wrong motives are attributed, or a newspaper is accused of playing favorites. So that it would appear that no matter how honest one's intentions may be or free from any personal motives, there will be a wrong construction placed on some things that appear in print. However, we all must take our medicine for the mistakes we make. After all, if one were to admit the plain truth, we all live in glass houses.

Self-analysis at frequent intervals or whenever a difficult situation arises has a good effect on the individual. Very much like the darkey on a southern plantation in a repentant mood, who said "It isn't my brudder, and it isn't my sister, it isn't my father and it ain't my mudder, but Me, Lord!" so it is with the great majority of us mortals. When life goes along like a song, very little discontent is existent. When difficulties cross our path, we are all too prone to go around with "a chip on the shoulder." Happy is he who can view life with the calm philosophy that sufficient unto the day is the evil thereof. The trouble that we anticipate may never arise. It is very hard to banish unpleasant anticipations when idleness is forced on people through circumstances not of their own fault or making. But that is part of the struggle of life which we must endure. We must try and maintain a cheerful attitude to help us over the hard stretches. We must all take our share of trouble, for as the song says: "If you want the rainbow, you must have the rain." Too much rain is a bad thing as we all know from experience. But keep your face turned towards the sunshine, so that the shadows fall behind you. Keep up the fires of ambition, even though your resources may be taxed to meet the cost of daily living.

Though the rink directors have decided against operating the rink this winter, the way is left open for those who have sufficient interest and enthusiasm in the younger people to take concerted action. The rink represents an asset valued at \$20,000, the money being furnished by citizens of Coleman several years ago. It was enthusiasm which made possible the raising of the money. Last winter there was not sufficient enthusiasm or support given to pay the operating costs of the rink, it showing a deficit of nearly \$500 on operation. This was made good by money turned over by the carnival committee. A proposal was made during the year whereby the miners would pay 25c a month to help finance its operation. It was not accepted. The council does not feel justified in asking the citizens as a whole to bear the cost of operation. This leaves the matter up to the citizens to decide if the rink will be opened this winter. There is no criticism coming to the directors for their action. The same men have borne the responsibility for several years, and even the most willing will not continue to do the work if public support is not forthcoming.

A suggestion has been made that parents form a committee to formulate a plan to submit to the directors. There are nearly 700 school children in Coleman, with a fine skating rink available for their especial benefit. Is it to become a white elephant for lack of interest on the part of parents? It is they and their children who are primarily affected. The Journal will gladly give publicity to any suggestions that may be offered.

Maclean's Magazine has stirred up considerable comment on an official Canadian flag. Since the days of Wolfe and Montcalm the Union Jack and the Canadian Ensign have both been regarded semi-officially. If an official flag is decided on, why bother about a hundred details of design. The Union Jack with a maple leaf would be sufficiently emblematic of Canada, and would satisfy 99 per cent. of the population. The remaining one per cent. would be against, whatever design may be adopted.

One chap in Toronto, voicing his opinions on the article by Hugh Savage in Maclean's, accuses him of being a petty "little Canadian" for writing such an article. The truth is that the same Hugh Savage is one hundred per cent for Canada and the Empire, fought under the Union Jack in the Boer War, and has travelled extensively in other countries as a representative of Canadian Weekly News-

papers. Such are the unjust criticisms levelled at a man when he writes something which arouses public interest.

The thing that puzzles one is what will we do with all the time we save if speed continues to increase?

Atwater Kent Screen-Grid Radio

ALWAYS FIRST with proved improvements, Atwater Kent now introduces Screen Grid Radio. It means the clearest flow of pure tone quality that you ever heard from a radio set. It means new power to reach far away stations—new sensitivity—new needle-point selectivity to separate the stations and pick out the one you want. New velvety depths and new heights of tonal perfection.

Through the magic of this Atwater Kent Screen Grid Radio, the voice of radio in all its beauty comes to you clearer, finer, farther than ever before—with mighty volume, if you like, or with the intimacy of a softly played guitar.

A Radio truly worthy of the finest home

The Journal

The Local Weekly— and Its Advertisers

There are stores which despite the fluctuations of business, continue persistently to let their light shine forth by advertising. It is this consistent effort which appeals to the great majority. It undoubtedly has a sub-conscious effect in creating that impression of alertness which everybody admires. And it is this steady persistent effort through good times and dull, which undoubtedly bears the most fruitful results. Through the local newspaper, which is in many respects the mouthpiece of the community, there may be placed before the people personal messages from retailers, the prime object of which is to develop good will and attract business. Through the local newspaper may be aired the rejoicings or the grievances of the community. Its local news may not appear of interest to outsiders, but it represents something of real interest to people who know each other. The Ladies Columns of the city newspapers are just the record of the local news of the ladies' activities around the city, so that city folks may enjoy reading of the comings and goings of their neighbors, of their teas and parties, equally as well as people who look to the local weekly for similar news.

It is through this medium, the weekly newspaper, which is read more thoroughly than any daily, that a local merchant has the best medium in which to convey his advertising message. Women do the greater part of the buying, and they are as equally alert in studying prices in advertisements as they are in reading the general news.

An advertiser soon discovers this if he should be so unfortunate as to make an error in marking something at very much less than its proper price.

And the store which regularly advertises is well worthy of your goodwill and patronage. It states frankly and honestly its prices, its values stand before you in the full glare of publicity, which in itself denotes that the merchant has the utmost confidence in the quality of the goods he offers and the service he renders.

"Humpty Dumpty" at Lethbridge

A number of people intend going to Lethbridge to attend the performances of "Humpty Dumpty," which is being presented by the Rodway Pentonime Co., of Birmingham, Eng. Sid Scott, who last season booked the Westminster Glee Singers on their Canadian tour, and who spent a few days in Coleman, is booking the Rodway Co., and states it is the greatest show he has ever had the pleasure of bringing to Canada. Performances are to be given Friday and Saturday evenings in the Majestic theatre, and a matinee on Saturday afternoon. Among those from Coleman who will attend are Mr. and Mrs. McBurney, Mr. and Mrs. Rippon and Mrs. T. B. Smith. Several others are contemplating attending.

ST. ALBAN'S CHURCH

Services for Sun, Oct. 28. Evensong at 7 p. m.

The W. A. will hold their fortnightly whist drive on Monday next in the parish hall at 8 p. m. The winners of the prizes on Monday, Oct. 14 were: Ladies first, Mrs. Neilson; second, Mrs. Blower. Gents first, Allan Brown; second, Mrs. Boulton.

The rector wishes to thank those who so kindly decorated the church and also to those who gave offerings of fruit and vegetables.

Mr. and Mrs. Adamson and child recently arrived from Banff to take up residence at Sentinel power plant, where Mr. Adamson has been appointed as an engineer.

WORLD HAPPENINGS BRIEFLY TOLD

Italy has accepted the British invitation to a five-power naval conference.

The French cabinet has decided formally to accept the British invitation to participate in a five-power naval limit conference in January. To tell British Columbia lumber to New Zealand and Australia, a delegation of mill owners and operators will leave Vancouver, December 11, on the Koroara.

John T. Phelan, 69, superintendent in charge of the Dominion Government Telegraphs in British Columbia, with headquarters in Vancouver, died at Victoria recently.

Officials of the Union Terminal Elevator Company, of which W. A. Anderson, Winnipeg, is president, have announced plans for the immediate construction of a one-million bushel addition to the Port Arthur plant.

Commissioner Lucy Booth-Hellberg, youngest sister of the late General Bramwell Booth, received orders from General Edward J. Higgins, head of the Salvation Army, to proceed to South America and take charge of the organization's work there.

Canadian railways earned larger gross operating revenues in 1928 than in any previous year. Freight revenues amounted to \$415,633,456, passenger revenues to \$84,313,962, and total revenues to \$500,000,000. The freight revenue was by far the largest ever earned.

French Government statistics compiled at the end of the present bathing season show the surprising total of 20 drownings daily, most of them children who venture beyond their depth. There is a growing agitation for more stringent regulations regarding life guards.

A Floating Theatre

An old four-masted schooner will be fitted up in the near future to form a floating theatre. The ship will be called Pro Arte, and will cruise around the world giving plays representative of German spirit. It will contain a modern stage and seating capacity for 500 persons.

Restless Children

Children will fret, often for no apparent reason. But there's always one sure way to comfort a restless, fretful child. Castoria! Harmless as the recipe on the wrapper; mild and bland as it tastes. But its gentle action soothes a youngster more surely than some powerful medicine that is meant for the stronger systems of adults.

That's the beauty of this special children's remedy! It may be given the tiniest infant—as often as there is any need. In cases of colic, diarrhoea, or similar disturbance, it is invaluable. But it has everyday uses all mothers should

understand. A coated tongue calls for a few drops to ward off constipation; so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed to get everything to rights. Genuine Castoria has Chas. H. Fletcher's signature on the wrapper. Doctors prescribe it.

Planning To Change Desert Into Garden

French Engineers Working On Idea To Irrigate Sahara

The most stupendous engineering scheme the world has ever known is in the process of being blue-printed by three engineers of Marseilles, France.

They have spent four years in a preliminary survey and in three years more will be ready to propose a plan which will change the entire map of South Europe, join the Mediterranean islands to the mainland, and 450,000 square miles to the possessions of France and Italy, and turn the Sahara desert into the world's most prolific garden.

At least a hundred plans for irrigating the Sahara desert have been advanced within 50 years, but none has been so thorough as this one. The scheme is to build two super-dams, one at Gibraltar and one at the Dardanelles and bottle up the Mediterranean until it becomes a fresh-water lake, supplied by the European and African rivers. Enormous pumps would be installed to force this water into canals leading to the desert.

Though the engineers admit that they do not expect the governments of Europe to take kindly to their scheme, they seem to be enjoying themselves.

YOUTHFULLY SMART

The British influence is smart new note in brick red sheer woolen with throw skirt with plaited ends.

It is essential to youthfulness with curved hipline emphasized by finely knitted side treatment of skirt, that extend across back.

The frock of skirt left in panel effect, adds considerable length to silhouette. The yoked treatment of bodice is another interesting new feature. Sleeves have turn-down flared cuffs.

Style No. 765 is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust.

It is one of the smartest models of the season for general daytime occasions, and especially lovely to wear to the football games.

Midnight blue crepe de chine is another fashionable choice that is a favorite with college girls and business women.

Dull black silk crepe with skirt lined with eggshell shade is effective.

Black crepe satin, canton crepe in plum shade, and goya red crepe self-trimmed are fascinating combinations.

Wool jersey in bottle green, printed kashmir jersey in beige and brown tone and feather-weight tweed in black and white ideal selecting.

Pattern price 25 cents, in stamps or coin (coin is preferred). Wrap coin carefully.

Treat Colds 2 Ways With One Treatment

RUBBED ON throat and chest, Vicks does two things at once:

- (1) It is vaporized by the body heat and inhaled direct to the inflamed air passages, and
- (2) It stimulates the skin like an old-fashioned poultice and "draws out" the soreness.

2 ways at once
VICKS
OVER 25 MILLION JARS USED YEARLY

Makes First Grain Entry

Saskatchewan Farmer Submits Sample Of Victory Oats For Chicago Grain Show.

To a Saskatchewan grain grower, James A. Paup, of Langham, goes the distinction of having made the first entry from Canada to be received for the International Grain and Hay Show to be held in Chicago, November 29 to December 7.

According to the exposition's connection, Paup's entry, which consists of a sample of Victory oats, will be matched with products of the fields from the farthestmost corners of the world, which are sent to compete in this premier crop show of the country, annually held in connection with the International Livestock Exposition.

Already for the 1929 event, samples of three varieties of wheat have been received from New South Wales.

Had Diarrhoea Bowels So Active Feared For His Life

Mrs. S. J. Jago, Canobie, N.B., writes:—"My little boy, when three years old, had a severe attack of diarrhoea. The bowels were so active, and he vomited so much, I feared for his life. I tried many medicines, but he was getting worse. A friend told me of

and after the second dose I saw an improvement. I gave him almost half a bottle and he was completely relieved.

"I have used it for the other children, and my husband and myself. My husband gives it great praise. Then the pharmacist complained to

when he goes to his work he always takes a bottle with him."

Put was always getting worse. A friend told me of

Black Ship Frees Boat

Employment of the principle that black absorbs the sun's rays and holds the heat, enabled the captain of an ice-bound steamer in a lake in Alaska to extricate his ship. He had a strip of refuse oil and lampblack, 40 feet wide, swabbed across the frozen lake. In a short time the strip softened sufficiently to allow the steamer to break through.

A Real Diplomat

Speaking of quick thinking, a man recently overlooked his wife's birthday. Tattling she reminded him of it. "Listen, darling," he said, "I know I forgot it, but there isn't a thing about you to remind me that you are a day older than you were a year ago."

All products exported from Spain are to bear a national label. A "made in Canada" label on all Canadian exports might impress on other nations just how much the Dominion does export.

Spain is to have a model automobile road 260 miles long.

After Shave

Mimard's mixed with sweet oil makes a cool, soothing after shave. Heals tiny cuts made by razor.

SUNDAY SCHOOL LESSON

OCTOBER 27

THE CHRISTIAN VIEW OF RECREATION

Golden Text: "I came that they may have life, and may have it abundantly."—John 10:10.
Lesson: Jeremiah 31:12, 18; Zechariah 8:5; Matthew 11:16-19; Mark 2:18-20; Luke 5:27; John 2:1-11.
Devotional Reading: Philippians 4:4-9.

Explanations and Comments

Jesus' Religious Teaching. Call To Joyousness. Verses 18-20.—The strict Jews, like the Pharisees in the parable of the Pharisee and Publican, fasted twice a week, on Mondays and Thursdays. The disciples of John the Baptist and the Pharisees fasted, but the disciples of Jesus did not. The former went to Jesus and complained because his disciples did not observe the fast. The friends of the bridegroom conducted the bride and her companions to the house of the bridegroom with singing and playing of musical instruments. They remained there for a week of feasting and mirth. The Talmud absolved them from Sabbath prayer and worship during such festivities. "As long as they have the bridegroom with them, they cannot fast," continued Jesus. "But the days will come, when the bridegroom shall be taken away from them, and then will they fast in that day."

"When Christ was withdrawn from the soul, when times of darkness hide or experiences of sin banish Him from the soul, or the strong need of a clearer sense of His presence overcomes the desire for food, or a failure in doing work indicates a lack of His presence and power (Matthew 17:1), then there will be fasting. Fasting is truly Christian only when it is the natural expression of Christian experience."—Lyman Abbott.

I Am Come That They May Have Life. Verses 23-26.—The Sabbath controversy was one of great importance in the eyes of the Pharisees. During the Jewish exile in Babylon, when sacrifices could no longer be offered in the temple, the strict keeping of the Sabbath became a chief part of the Jewish worship, and legislation multiplied in regard to the observance required. The Sabbath was the seventh day of the week. The reason why we keep the first day is thus given by Justin Martyr (second century): "Sunday is the day on which we all hold our common assembly, because it is the first day on which God wrought a change in the darkness and made the world, and Jesus Christ on the same day rose from the dead." Said Paul, writing at the close of the eighth century: "The observance of the former Sabbath has been transferred very fittingly to the Lord's Day, by the custom and consent of the people."

One Sabbath day Jesus and His disciples were walking through the grain fields. There were no fences, and public paths led through the fields of grain. As they went along, the disciples plucked the ears, which Jesus saw. Deut. 27:25 says: "When thou comest into thy neighbor's standing grain, then thou mayest pluck the ears with thy hand, but thou shalt not move a sickle into thy neighbor's standing grain." The grain was either barley or wheat.

Then the Pharisees complained to Jesus saying, "Behold, why do they on the Sabbath that which is not lawful? They held it to be unlawful because it was the Sabbath. In answer, Jesus said: "Did ye never read in Sam. vi, what David did when he had need, and was hungry, he and they that were with him?" On every Sabbath day twelve fresh loaves of bread were placed in upon a table in the Holy Place (as symbol of communion of God with men), and the twelve loaves were taken away and eaten by the priests. It was not lawful for any one else to eat of them. When David, in his flight from Saul, who was determined to kill him, came to Nob, where the tabernacle was at that time, he induced the priest to let him eat those with him appease their hunger by eating the shewbread. It was probably a case of Sabbath-breaking, but Jesus recalls it as an instance of the setting aside of ceremonial law for good and sufficient reasons.

Invents New Torpedo

Don Manuel Garcia Diaz, Spanish naval officer, is said to have invented a torpedo which can be fired without detection by a submarine. Where the old type torpedoes left a noticeable wake after its release, the new one leaves nothing to show its path. Submarines could strike with these without warning and without detection.

Had Good Reason

Sir James M. Barrie, the noted author, has revealed why he is so fond of Glasgow. Speaking of his younger days, he said there was once a horse show in the Scottish city. "I patronized it and lost a penny. I went back at night, climbed the railing and searched for it. I found three pence. No wonder I have a friendly feeling for Glasgow."

Small acrobates recently exhibited at the English Aero Show, and landed at 11,700 feet, are capable of 85 miles an hour over long distances. They carry only one man.

Mechanical cotton pickers are put on the market, it is reported.

Thanksgiving Day

Advance Opinion That Day Of Thanksgiving Should Be Fixed For October

That is a good suggestion that comes from the Canadian Chamber of Commerce, that Thanksgiving Day should be fixed for some time in October. Before Armistice Day came along with such a whirlwind of thanksgiving that people thought it should be continued for all time. Thanksgiving Day was held in October. Then, with the harvest safely housed, people gave thanks in weather that made everybody thankful that he was alive.

Now thankfulness for the end of the war has melted into memories of the heroic dead—memories that do not fit in with the joyousness that characterizes the regulation Canadian Thanksgiving of feasting and sport. Armistice is a day apart. It lends itself to solemnity, mingled with sorrow. Let it have early November all to itself. Put Thanksgiving Day back where it belongs.—Toronto Telegram.

Might Try It Here

The Soviet government has found a way to make night-loving Russians go to bed. It turns off most of the street lights and doubles the prices for food and drink after 10 p.m.

Red brick owes its color to iron oxide in the clay; buff brick is the result of iron sulphide.

He Asked Them Does It Pay To Clip Cows?

A CERTAIN farmer wanted to know about clipping cows. He wrote them, now he himself is so pleased with the results of clipping machine he sent us the letters which made him decide the clipping machine is a good investment. Here are some of them:

"It short of help. Hawkebury. Machine is a good investment. Here are some of them: "Before we clipped our cows we had a high bacteria count, where as after we clipped them we had a very low bacteria count thus improving the quality of our milk."

Jordan. "Before we clipped our cows we had a high bacteria count, where as after we clipped them we had a very low bacteria count thus improving the quality of our milk."

Whitby. "And it certainly is a wonderful help in reducing lice."

Gadhill. "We find it much easier to keep them clean and free from vermin when clipped. To have clean milk is a good thing. We raise quite a number of heifers every year and that is why we always have a number of cows to sell. The clipping so improves the appearance of the cows that I think it easily adds 5 or 10 dollars to the value of an animal."

HOW TO CLIP COWS

Mature, well-bred cows of various breeds, cannot collect and at milking time rub off into the milk and fall in kept clipped short all winter.

Use seem to congregate along the sides, which explain why some farmers clip a six-inch width from the tail to ears.

Farmers who have warm stables and drinking water inside, usually clip their cows all over in the fall.

Buy a clipping machine and make more money from your cows—with less work.

Stewart No. 1 Clipping Machine is easy to use and anyone can do it with it. Strong, sturdy, economical and will last a lifetime.

At your dealer, \$15.00. Satisfaction or money refunded.

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, wins fame as a composer of popular songs. He marries Molly Winton, a ballad singer and makes her famous, too. Molly and Al have a baby, Junior, whom Al adores. When Junior is about two years old Molly becomes romantically interested in John Perry, Al's best friend. On New Year's Eve Al rushes home from the Club Bombo, where he is part owner and master of ceremonies, to find that Molly has eloped with Perry, taking Junior. Al is staggered by the cruel blow. Next morning he visits Marcus, producer of the revue in which Molly appeared, in search of information.

CHAPTER XVIII

Marcus handed Al a tiny marked paragraph from the theatrical column of a morning paper. It read:

"Miss Molly Winton, headliner in The Merry-Go-Rounders, the most popular Marcus review of the season, has left the cast temporarily for a much-needed rest. Her place will be taken by her understudy, Suzanne Eastman."

"Temporarily?" exclaimed Al. "Well, we just phrased it to come back in case she should happen to come back. That's the meaning of all this, Al!"

Al stared hard at Marcus. Should he tell Marcus the truth, or should he cover up? It was apparent that Marcus knew nothing of Molly's whereabouts—and that was what Al had come to find out.

"Nothing," answered the young song-writer. "It's just as she says—she's tired out."

Marcus leaned back in his chair, studying Al's face carefully.

"Boy, you're holding back on this. I can tell from your expression that she's done something to you, too. Has she—has she ditched you?"

"I didn't say that."

"I know you didn't, but—your eyes say it. You look as if you hadn't slept for six months."

Al felt himself sagging, but he suddenly stiffened and exclaimed vehemently:

"Listen, Marcus, don't give me away on this. It would make scandal and I don't want publicity. I

want to work it out my own way. But—Molly has left me."

"Then! I'll be mum—but when—when?"

"Last night—with John Perry. Left a note. She took Junior."

Marcus's face softened in sympathy for the stricken man. Here stood his best song-writer, the boy he had discovered and made famous, the lines of his face sharply etched by pain. Al seemed to have aged overnight.

The producer jumped up, ran around the table, put his arm about Al's shoulders.

"Don't let it throw you! It's a tough break, but you were bound to get it some day from that girl."

"Yes, I know it—now!" Al answered bitterly. "But did you see it coming?"

The producer nodded. "Do you remember that night down at Blackie Joe's three years ago—"

"I insisted that if I bought your song I'd have to give you sweetie, Molly, a good review job too? I took a long look at Molly—and I decided she was a cheater."

Then, when John Perry came along I saw a few things. But I thought it might blow over—there was no use warning you. You loved her too much."

"I loved her too much, that's true," admitted Al. "I trusted her completely, and I trusted John Perry, too. I'd like to get that snake alone just once!"

"Again the feeling of rage returned to Al. Marcus's grip tightened on his shoulder.

"Steady, Al. You don't win this battle that way. Let her go—forget her."

"It's easier to say than to do, Marcus. Besides, she's taken my boy, Junior. That's what hurts most."

"I know, I know," Marcus gently led Al toward a chair. "Here, sit down, pull yourself together. And have a shot of Scotch."

The days passed like years, until a week was gone. But still there was no trace of Molly and Junior, and no word from them.

Somehow, Al managed to live through those terrible days of futile waiting, but he was unable to continue his song-writing, unable to fill his post as master of ceremonies at the Club Bombo.

At the end of the week he came to a sudden decision. He approached Billy Cline, his business partner at the Bombo, for a conference. They sat in the office one afternoon above the ballroom of the Bombo.

"Billy," Al began doggedly, "I can't go on with this. You know why. I can't appear before that crowd downstairs and go through with my wise-cracking routine. So I might as well get out, bag and baggage."

"Set out, you mean?" questioned his partner.

"Yes, just that. I want you to buy my interest and I'll disappear. I'm through with Broadway—the whole life."

"Don't say that, Al," countered Billy. "You've got a thousand more songs in you—every one a hit."

"No," Al shook his head. "It's the end of all that sort of thing."

His partner hesitated. "Well, all of course I'll buy your share in the club, but the place won't be the same without you."

"I s'pose that's true, Bill, but my heart isn't in it. You've got to feel gay to be gay—that is, consistently. I thought I could work through this, but I can't, so—"

"I s'pose that's true, Bill, but my heart isn't in it. You've got to feel gay to be gay—that is, consistently. I thought I could work through this, but I can't, so—"

Billy Cline studied Al's face just as Marcus had done, trying to think of some way his friend's problem might be solved. But he ended by making a gesture of acquiescence to

Al's proposal. Cline knew in his heart that Al was right about himself—a man can't write songs or carry on in the night club racket unless he can amuse the crowd. And Al's face showed he just couldn't. Cline rose.

"All right, Al. I'll get the books and we'll have an accounting."

As Cline walked away Al picked up a newspaper that an office boy had just left on a nearby chair. He turned it over—and staring at him from the front page was a large photograph of Molly. The words he read beneath that smiling photo horrified him.

Molly's hard eyes in the newspaper reproduction seemed fixed on Al in cynical and cruel triumph. In a two-column box he read:

"Interviewed at her suite at the Biltmore today, prior to sailing on the 'De France,' Molly Winton, celebrated songstress and late star of 'The Merry-Go-Rounders,' confirmed the rumor that she is contemplating a Paris divorce from her husband, Al Stone, song-writer and Broadway's favorite master of ceremonies."

That one sentence was enough; Al dropped the paper and jumped up just as Billy Cline returned with the Club Bombo account books.

"What's the matter, Al?" cried his partner, for Al's face was ashen.

"Read this," Al snatched up the paper. "Molly's sailing today for Europe, taking Junior. It means I may never see my boy again! For all I know, they're on the high seas now!"

Cline scanned the article rapidly, but Al interrupted him.

"Have they sailed yet?" he cried in tones of anguish. "Have they taken Junior away without a word?"

Cline turned quickly to the shipping news, while Al stood glancing over his shoulder. Down the column their eyes traveled to the part marked "Sailings-Today." And then—"De France—6 P.M."

Cline looked at his watch. "It's three now, Al. You might be able to stop them."

"You mean legally—the police," "There's just a chance."

"I won't do that. I have my reasons. But I must see Junior before he leaves—I don't know what he means to me, Billy!"

Al grabbed up the 'phone from Cline's desk and put in a call for the Biltmore.

"I'd like to speak to Mrs. Al Stone."

Molly was superintending the packing of her bags when the 'phone rang. Junior was playing in the adjoining room of the suite and John Perry, who had just arrived, was reclining in an easy chair near Molly, smoking a cigarette, his hat and stick beside him. The maid put down an armful of Molly's clothes and moved toward the 'phone.

(To Be Continued.)

Minard's Liniment for Warts.

"John, you have been drinking my brandy."

"I have not, sir."

"Are you quite sure?"

"Quite sure. I could not get the cork out."

The American lotus is rapidly becoming extinct.

Was In Bed All Summer

"I have to work in the store and do my own housework, too, and I got nervous and run-down and was in bed nearly all summer. The least noise would make me nervous. I was told to take Lydia E. Pinkham's Vegetable Compound and I have taken seven bottles. It has made me stronger and put more color into my face. I am looking after my store and housework and my four children and I am getting along nicely now."

—Mrs. J. Malin, R. R. No. 5, Barron St. East, Hamilton, Ontario, Canada.

Lydia E. Pinkham's Vegetable Compound

Lydia E. Pinkham Med. Co., Lynn, Mass. U. S. A. and Chicago, Ontario, Canada.

A reliable Antiseptic — Minard's Liniment.

A Goliath Among Animals

Monster Unearthed in Africa Twice Length Of Biggest Whale

Lying under the ground in Tanganyika Territory, Africa, are the remains of a very Goliath among animals, a reptile as long as a street.

Part of it has already been uncovered, and the dimensions of the fossil bones suggest that it must be at least twice as big as the Diplodocus Carnegie, the giant found in Wyoming and now in the Carnegie Institute at Pittsburgh. A cast of this creature is in the Natural History Museum at South Kensington, England, and that is 80 feet long.

The newly discovered monster of Tanganyika must be at least 160 feet long, or nearly twice the length of the biggest known whale.

These creatures, though so big, and called dinosaurs, were not ferocious carnivores (meat-eating animals). They lived on plants, and, although their bodies were bigger than the biggest elephants, their heads and brains were no bigger than those of a horse.

The newly found animal's tail measured 100 feet long, and its body must have stood between 20 and 30 feet from the ground.

These remains are of what must surely be the largest animal that ever lived.

NO MEDICINE LIKE BABY'S OWN TABLETS

Once a Mother Has Used Them She Will Use Nothing Else

To once use Baby's Own Tablets is to use them continually—that is as long as there are young children in the house.

They are given by mothers from all parts of Canada. They all say that they know of nothing so effective as Tablets that they find them safe and efficient and at the same time pleasant to take.

Mrs. John Hollinworth, Maidstone, Ont., writes: "I have three children, twelve, fourteen and the youngest nine months old. I have always used Baby's Own Tablets for them and have found no other medicine to equal the Tablets as a relief for the many ailments of childhood."

Baby's Own Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach. They drive out constipation and indigestion, break up colds and simple fevers and make the cutting of teeth easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Many Uses For Butter

People Of Tibet Use It In Strange Ways

In Tibet where cows and Yaks abound, no fresh milk is used. It is all churned to make butter. They use the butter in their lamps, they color it and mold it into patterns on cakes that adorn their altars; they eat it and wear it. Soldiers' rations include sheep bladders of butter, travellers carry them on a journey, housewives keep them hanging in the kitchen for years if possible, for they prize rancid butter as westerners do ripe cheese. In the winter, both men and women smear themselves with butter until they shine and reek with it. They feed themselves with buttered tea—a soup made of boiled tea, strained through a sieve and then churned with butter and thickened with "tsamba," a ground barley.

His Best Excuse

A gentleman who depends on his wife to make his excuses picked up the telephone the other day and inadvertently received an invitation for a weekend with a family he wouldn't think of visiting. Caught thus he had to struggle through the situation alone.

"I'm sorry," he said, "but I'm called to Cleveland for the air races and won't be back until next Tuesday."

"Then how about next weekend?" inquired the caller.

"I'm afraid that's out, too," he said, and, thinking fast, went on, "Ah—we've got to go to a funeral a week from Sunday."

In the course of a century, about five comets usually appear that are visible to the naked eye.

A reliable Antiseptic — Minard's Liniment.

Says Monkeys Have Language

Naturalist Believes Baboons Actually Talk To One Another

Among many curious discoveries made by Cherry Kearton, the naturalist, during a recent expedition into Central Africa, is one of particular interest: He has found out that baboons have a language of their own and do actually talk to one another.

"You can often see their lips move as if in question or answer," writes Kearton, "and sometimes they seem in this way to carry on quite long conversations."

On one occasion the naturalist was waiting patiently with his camera in a "hide-up" which he had carefully built of stone near a water hole when a large troop of baboons, headed by one old leader, came down to drink.

"Among them was a mother with her baby perched like a little jockey on her back," says Kearton. "She went up to where the old chief was sitting on a stone, exactly like a human being. The mother very gently placed her offspring almost at the old fellow's feet before she stooped to drink. While she was drinking, the old baboon—becoming, apparently, suddenly interested in his task as nursemaid—picked up the baby, examined it and held it on his knees until the mother had finished."

"A few minutes later the mother, taking it from him, said something which I hope was a word of thanks, and then, with her child in her arms, sat down and entered into what could only have been a conversation."

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

What can I give Him. Poor as I am? If I were a shepherd, I would bring a lamb; if I were a wise man, if I would do his part; Yet what can I give Him? Give me heart.

—Christina G. Rossetti.

O Lord! take my heart, for I cannot give it; and when Thou hast it, oh, keep it! for I cannot keep it for Thee; and save me in spite of myself, for Jesus Christ's sake.

—Fenelon.

Relieves Asthma At Little Expense. Thousands of dollars have been vainly spent upon remedies for asthma and seldom, if ever, with any relief. Dr. J. D. Kellogg's Asthma Remedy, despite its assurance of benefit, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply it.

Rolling Up Mileage

It is calculated that the total mileage now run by cars on British roads is 12,000 million miles a year. The total running mileage of British railways is about 600 million made a year. The motor mileage is, therefore, about twenty times as great as the mileage of the railways.

Wonderful For Indigestion!

When your stomach feels bad; when Gas, Sourness, Nausea or after-dinner pains make you feel miserable—a single dose of pure Hering's Magnesia will bring almost instant relief!

For the relief of the most effective cases of INDIGESTION, HERING'S MAGNESIA is really a wonder. Eveready most often cures quickly respond. Pleasant and inexpensive to use. Ask your druggist.

Does His Bit

"You don't make very good music with that instrument," said the bystander to the man with the bass drum, as the band ceased to play.

"No," admitted the pouter, "I don't. But I drown a heap of bad music."

EVEREADY

You can use these famous batteries until the heavy zinc plates are riddled full of holes—and they'll still keep on running your radio! Eveready Layerbilt, the only flat-cell "B" battery, is justly popular for its long life and low power cost. Buy Eveready Layerbilts for economy and better service. Made in three sizes.

Personal and Local

"Alex M. Morrison is a patient in hospital."

Mr. and Mrs. John Scott motored to Lethbridge last Thursday for a few days visit with friends.

Mr. and Mrs. Harding, formerly of Coleman, now living at Calgary, were visiting friends here to day.

C. J. Devine, who has been a very sick man, is now on the mend, and hopes to soon be around again.

Keep Monday, Nov. 4, free. Watch for interesting announcement of particulars.

President A. C. Flumerfelt of International Coal & Coke Co., Ltd., was a visitor in Coleman over the week end.

A very enjoyable evening was spent at the whist drive and dance held in the K. of P. hall on Saturday, 14 tables being in play. The prize winners were as follows: Mrs. Wm. Wilson, Miss Nettie Gillespie, Mr. A. McIntock, Mr. J. McArtney.

Mr. A. Cameron returned last Wednesday from his fruit farm at Creston, to spend the winter in Coleman.

Mr. and Mrs. T. Bowen motored to Calgary on Sunday, being called there by the serious illness of a relative.

\$15 and costs was the fine imposed this morning by Magistrate Gresham on a Coleman man for speeding.

Glorious weather during October has been thoroughly enjoyed by hunters, golfers and all who enjoy the great outdoors.

Counter check books may be ordered through The Journal office at factory prices. Agents for all lines.

Peter Smith left on Friday night for Aerial, near Drumheller, to seek employment while the mines here are quiet.

A meeting was held last evening in the K. of P. hall addressed by a Mr. Snelgrove. D. Gillespie was chairman. Owing to lack of time, a detailed report is not available for this issue of The Journal.

Scotsmen are proud of their country, its traditions and its ancient historic landmarks. Even the quarters above the fire hall have been given the dignity of the name of "Edinburgh Castle."

Lieut. Meakings, who for sixteen months has been in charge of the Salvation Army post here, will hold his farewell services on Sunday next. His new post is not yet known.

It's a long lane that hasn't a turning, though it takes a great deal of tenacity to hang on when the going is steadily up hill. But the fellow that does persevere in face of many obstacles in most cases wins out.

Canadian Pacific steamships advertise in this issue sailings for the Christmas season, on their "Duchess" ships. Complete information concerning these will be given by C. W. McKinnon, local agent.

Personal greeting cards that you'll be proud to send to your friends may be obtained at The Journal. You have a choice of over 100 designs to choose from. Representative will call with sample book, or Telephone 209.

Mr. Melville Anderson, of Anderson & McLean, sight specialists, of Calgary, announces next visit to G. R. Powell's, Coleman, Thurs., Oct. 31. 20 years experience in regular visits assure you of satisfaction in all optical work.

Miss Talman, returned missionary from China, is this week addressing the members of the W. M. S. of the United church in the Pastors' On Tuesday she addressed the members at the annual meeting of the W. M. S. in Coleman, dealing with the vital importance of steady effort in support of missionary work. On Wednesday she addressed a similar meeting in Blairmore.

Ottawa Men Visit Mines

Dr. McLeish, director of Mines Branch, Geological Survey, Ottawa; Dr. Haanel, chief of the fuel test ing department, and Messrs Strong and Gilmore, fuel testing engineers of the mines branch, Ottawa, were in the district visiting the Crown Pass bituminous mines. The first two gentlemen are also members of the Fuel Board appointed some years ago by the Dominion government. Points visited by the party were Fernie, Coleman, Blairmore and Bellevue, and they were entertained by the general managers of the mining companies at each place.

Pupils of Caruso

Vincent Colagrosso and Jim Chalmers of Coleman, are two lyric tenors who are budding on the horizon. Last week's Blairmore Enterprise states that they sang several vocal refrains with Miss Rae, accompanied by Altematt orchestra, at the Moose dance and received tremendous accolades from the large crowd of dancers who seemed plumb full of pep from start to finish, especially so after the arrival of Frank Johnson and his fiddle.

Celebrated Merchandiser on Advertising

John Wanamaker's advertising language from the earliest days was always human, frank, straight to the point. "Talk things over with the people," he would say, "take them wholly and sincerely into your confidence, tell the facts—and business will come, if your merchandise and service warrant it."

Announcement

Dr. McLeod wishes to announce that in future his hours for general practice will be restricted to the afternoons and evenings of each week-day. His time in the morning is entirely occupied in taking care of the children of the High and Public schools.

Special attention is called to the announcement in Coleman Cash Grocery's advertisement regarding sending boxes of apples to the old country as Christmas presents. This popular form of sending gifts has increased very rapidly, and an attractive offer is made whereby you are saved a great deal of worry and trouble.

It is not merely better to create than to destroy, but it is better to create something which is useful, or desirable, to others. If we work only for ourselves, we are doing wrong. We all feel a deep obligation to work for others, and the greatest happiness returns come from the result of labor unselfishly performed.—Exchange.
